# Safety Moment – Hypothermia

<https://www.scouting.org/health-and-safety/safety-moments/hypothermia/>

## Signs/Symptoms of Hypothermia

- Feeling cold, shivering uncontrollably
- Cool or cold skin on the abdomen, chest, or back
- Presence of the “umbles”
  - Stumbles: loss of control over movement
  - Mumbles: slurred or incoherent speech
  - Fumbles: poor coordination or reaction time
  - Grumbles: change in behavior or attitude
- Fatigue

## As hypothermia progresses, the person will exhibit:

- Stiff muscles
- No shivering
- Skin that feels ice-cold and may appear bluish
- Confusion, agitation, memory loss
- Slow, weak pulse
- Slow, shallow breathing
- Loss of consciousness

# The Risk Factors

- Exhaustion
- Victims who are very young or old; the body's thermoregulation is not at its peak.
- Alcohol or drug use
- Certain medical conditions and medications can affect one's ability to regulate body temperature.
- Cold, damp weather conditions

## • Care of Hypothermia

1. Get the victim out of the cold.
2. Remove wet clothing and wrap them up in warm, dry clothes. Add additional layers such as a sleeping bag, blankets, or some form of plastic to hold in body heat.
3. If the victim is conscious and able to swallow, offer warm liquids to drink. **Do not** give alcoholic drinks.
4. Handle them gently. Excessive movements or rough handling can lead to cardiac arrest.
5. Apply warm, dry compresses to the neck, chest, and groin areas. **Do not** apply heat to the arms or legs, because this speeds cold blood back to the heart, lungs, and brain, causing the core temperature to drop even lower; this can be fatal.
6. **Do not** apply direct heat as with hot water bottles, a heating pad, or a heating lamp. This extreme heat can cause skin damage, an irregular heart rhythm, or even cardiac arrest.
7. If a person with severe hypothermia who is unconscious seems to not have a pulse or not be breathing, perform CPR. CPR should continue during rewarming. Sometimes, people experiencing hypothermia can be successfully resuscitated.
8. Get emergency care/call 911.

# NorCal College of Commissioner Science

- The 2022 Nor Cal Commissioner College is scheduled for February 26, 2022.
- The 2022 College will be presented in a virtual format using Zoom.
- <https://www.norcalcommissioner.org/>
